

Dear Sir/Madam

GBN is a non-profit organization based in Yokohama, Japan. Our mission is to create opportunities for cross-cultural understanding and mutual cooperation by being a bridge among people around the world through implementation of projects focusing on international support and international communication. We have been active since June 2016.

Through various activities, we are working to achieve SDGs, especially the following goals.

GBN is carrying out the following projects

Although we have developed the projects above, at present, an increase in orphans is becoming a serious problem in Uganda, and our local partner, SORAK (NGO) got the intention of “building an orphanage center to protect children.” We have implemented projects in Mubende Province, located along the main road connecting Uganda's capital city Kampala to the Democratic Republic of Congo where there are many prostitutes, therefore, children who are born to single mothers working as prostitutes, women with mental illness and women from poor families are more likely to be abandoned as orphans. In addition, children in slum areas where infections and HIV/AIDS are widespread, do not have financial resources for education. Opportunities to receive education have been limited particularly more for girls.

GBN sympathizes with what the local people face during the solving of these problems, and its hoping to do its best in supporting the future of these abandoned children. We would appreciate your cooperation and support.
